MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1 Summary of units of service provided to patients, July 1, 1973 through January 31, 1974

Inpatient units	3,086,815
Family care units	84,853
Day care attendances	74,021
Outpatient visits	212,419
Total	3,458,108

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed occupant in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of service is counted per patient.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

FEBRUARY 1974

Government Documents
Collection
APR 23 1974

University of Massachusetts

NOTE: Definition of terms are found on pages 2 and 7

MASSACHUSETTS DEPARTMENT OF MENTAL HEALTH
Evaluation, Research and Statistics

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1. Summary of units of service provided to patients July 1, 1973 through February 28, 1974

Inpatient units	3,474,432
Family care units	95,970
Day care attendances	83,576
Outpatient visits	244,648
Total	3,898,626

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed occupant in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

Evaluation, Research and Statistics

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1. Summary of units of service provided to patients July 1, 1973 through March 31, 1974

Inpatient	4,048,860
Family care units	109,857
Day care attendances	95,097
Outpatient visits	281,008
Total	4,383,822

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed occupant in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

* Of individual institution

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1. Summary of units of service provided to patients July 1, 1973 through April 30, 1974

Inpatient	4,301,437
Family care units	121,410
Day care attendances	107,507
Outpatient visits	322,078
Total	4,852,432

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed occupant in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institition was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

*of individual institution

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

May 1970

Inpatient	4,713,527
Family Care	134,205
Day care attendances	121,230
Outpatient visits	363,608
Total	5,331,570

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed patient in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

June 1974

Inpatient	5,104,222
Family Care	146,558
Day care attendances	132,542
Outpatient visits	401,203
Total	5,784,525

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed patient in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

* Of individual institution

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1 Summary of units of service provided to patients July 1, 1974 through August 31, 1974

Inpatient units	781,985
Family care	25,229
Day care attendances	21,660
Outpatient visits	75,713
Total	904,587

Definitions for Table 1 through 5:

An inpatient units is one in which the patient was a bed occupant in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1. Summary of units of service provided to patients
July 1, 1974 through September 30, 1974

Inpatient units	1,163,698
Family care	36,222
Day care attendances	32,985
Outpatient visits	112,799
Total	1,345,704

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed occupant in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1. Summary of units of service provided to patients July 1, 1974 through October 31, 1974

Inpatient units	1,555,355
Family Care	46,980
Day care attendances	46,054
Outpatient visits	152,280
Total	1,800,669

Government Documents Collection JAN 7 2016 University of Massachusetts

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed patient in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1. Summary of units of service provided to patients July 1, 1973 through November 30, 1974

Inpatient	1,926,749
Family care units	57,623
Day care attendances	57,430
Outpatient visits	187,027
Total	2,228,829

Definitions for Table 1 through 5:

An inpatient unit is one in which the patient was a bed occupant in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant.

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Table 1. Summary of units of service provided to patients July 1, 1974 through December 31, 1974

Inpatient	2,302,249
Family care units	68,654
Day care attendances	68,159
Outpatient visits	224,080
Total	2,663,142

Definitions for Table 1 through 5.

An inpatient unit is one in which the patient was a bed occupant in the institution at the time of its nightly census.

A family care unit is one in which the patient in a family care facility of the institution was a bed occupant at the time of the facility's nightly census.

A day care attendance is a daytime period in which the patient spent several hours under the care of the institution but was not counted as a bed occupant

An outpatient visit is a face to face session - usually for an hour or less - between the patient and one or more of the institution's supervised mental health workers.

During a 24 hour period only one type of unit of service is counted per patient.

MONTHLY STATISTICAL REPORT ON ACTIVITIES OF MASSACHUSETTS STATE INSTITUTIONS PROVIDING INPATIENT CARE FOR MENTAL DISORDERS

Definitions for Tables 6 through 11:

The active census of inpatients is the count of actual bed occupants at the time of the nightly census plus inpatients on absence of 7 days or less.

New additions are admissions to inpatient care among patients without past inpatient care in the specified institutions.

For individual institutions, other additions include (1) admissions to inpatient care with past inpatient care in the specified institution, (2) returns to inpatient care in the institution from visit, family care, placement, and unauthorized leave, and (3) direct movements from inpatient care in other mental institutions. Returns from absence of less than 7 days are not included.

Deaths are confined to those occuring in the institutions.

For individual institutions, other removals include (1) outright discharges from inpatient care, (2) movements from inpatient care in the institution to visit, family care, placement, and unauthorized leave, and (3) direct movements to inpatient care in other mental institutions. Movements to absence of 7 days of less are not included.

In group totals, movements directly between mental institutions are excluded from other additions and other removals.
